

## LAST MEETING OF COUNCIL VERY QUIET

**Business Tax Does Not Give  
Payer a Vote—Will Revoke  
School Tax to Returned Sol-  
diers—Water Rates Raised to  
\$20.00 Basis.**

The regular meeting of the town council was held last Monday evening but it being the next to last meeting of the year the customary procedure was followed and very little new business was introduced. Several important matters, however, were introduced but were left over for the incoming council to deal with.

In the absence of Mayor Bott, Acting Mayor Leveque occupied the chair and the following councillors were present: Messrs. Lyliatt, McLean and Perrin.

The report of the water committee showed a slight falling in the domestic consumption of water, as only 67 gallons per head per day was used.

In answer to a letter written by a ratepayer to the Minister of Municipalities asking if all those who were expected to pay a business tax should have their names placed on the Voters' list, the Minister wrote council stating that in his opinion the paying of a business tax would not entitle those paying it to vote.

At this was the last meeting of council at which a business tax would be present he produced a book of signs and passed them around to the council. In doing so he took advantage of the occasion to remark that his association with the council had been very pleasant and he hoped the new council would work harmoniously together for the good of the town. In acknowledging the smokes the councillors expressed regret at leaving Mr. McLean's services.

After some discussion it was moved by Councillor Lyliatt, seconded by Councillor Perrin, that this tax be refunded to all such holders upon application to the town clerk.

On view of present financial conditions Councillor Lyliatt thought the steps should be taken in the future. Among other things the question of water rates was discussed, and as there is a deficit in this department it was thought some changes should be made. It was therefore moved by Councillor Lyliatt, seconded by Councillor McLean, that the water rates be raised to a basis of \$20.00 for a five-hundred house, the same to take effect on January 1st, 1919.

Several other means of securing additional funds were discussed but they were referred to the finance committee and town solicitor for investigation. Instructions to report at next meeting.

Council then adjourned.

## Britain's War Demands Run Into Billions

Great Britain will demand of Germany \$40,000,000,000 for Great Britain and her dominions as reparation for the war, according to the Daily News.

This, the Daily Mail adds, is the highest cost Great Britain and her dominions, and taxpayers will be required to \$400,000,000 per annum by the German payment.

The French claim for reparation for the war is asserted, by this province, to be infinitely larger than that of Great Britain.

## Alberta Gets Grant For Housing Problem

The cities of Alberta will be entitled to draw about \$100,000 from the Dominion treasury under the Dominion government's housing scheme. This share in the housing problem will be entitled on a basis of population and it will provide for about 300 houses at a cost of \$30,000 each.

The money to come to this province will be for the use of the larger cities only, and for workingmen's dwellings, although the provincial government is endeavoring to work out a plan whereby important industrial centers may obtain some relief from the plan.

## Two More Deaths From Influenza

Since our last issue two deaths occurred at the hospital here and in both cases they were the result of complications following an attack of influenza. The first was Adam Winslow who died on Saturday, Dec. 7th. He came here about three months ago from Moosejoe, Man., and had been working at the great plant here since his arrival till he took sick. He was 42 years of age and leaves a wife and large family in Banjoet. The remains were interred in the Medicine Hat cemetery last Sunday.

The other death was a young man named Fred House. He came here from Medicine Hat a short time ago to work in the Helling Mill. He was only 22 years of age and was a very young wife and infant child. The remains were taken to St. Paul's, Man., Ont., for interment.

In both these cases the unfortunate men were in a serious condition before calling in medical aid. Everything possible was done to relieve their suffering but of no avail.

## Presentation To Mr. and Mrs. Harbert

During the epidemic Mr. and Mrs. J. Harbert and family left Redcliffe for the east, Mr. Harbert recalled to the seat office of the Dominion Glass, and at Montreal. As no gatherings were permitted no one could be accorded them or public recognition made to them for their untiring service to St. Ambrose church. Mr. Harbert during his five years at Redcliffe acted as such warder or as faithful member of the church. As a token of appreciation the vicar and the members presented him with a picture of the church and a very suitably framed and illuminated. On the afternoon of their departure Mrs. Harbert was graciously given a membership in the Women's Auxiliary of the Dominion of Canada, together with a gold bar to her cross of membership, subscribed for by the members of St. Ambrose W. A. and officers of the church. Of Mrs. Harbert's untiring work for the church in the parish and diocese and in so many directions it is difficult to express due appreciation. Her life and activities were continuously given to good works and she and her husband and family will be very greatly missed at St. Ambrose. Mr. Goddard, who has been years of helpfulness and usefulness in their new surroundings. They can be sure of a very warm and helpful spirit in the future.

## Big Gathering For Peace Conference

Every train arriving at Paris these days brings in large numbers of officials attached to the various delegations to the peace conference. All the larger allied nations are continuing to send part of their working personnel and by the time the delegates gather the number of officials of all nationalities will number between 3,000 and 5,000. Each one will have some special work to do. Many of them are already here.

A large number of the officials of the leading powers are receiving many representatives of small nationalities and groups of nationalists who are interested which they intend to bring before the conference. Some of the present governments which have not yet been recognized by the conference are two groups of representatives of the same nationality each claiming to represent the nation and each anxious to put forward its claims and statements.

## Xmas Joy Water Confiscated By A.P.P.

During last week the A. P. P. did a rushing business in seizing bootleggers cars bound from Montana to Alberta points with Christmas supply of liquor. A Ford was seized at Macleod, another at Howland, a Dodge at Lethbridge and a Buick at Judo, Cochrane. The Buick was a racing model and the owner beat it when the police stepped on his trail with a padlock. All the cars were turned over to the detention department of the customs.

## THE PUBLIC THANKSGIVING IS POSTPONED

**This Was Decided Upon by the  
Committee Owing to Un-  
certainly of Health Conditions—  
Will Be Held Later.**

Preparations were well under way for holding a public Thanksgiving service in one of the theatres here next Sunday afternoon, but owing to health conditions there were some who questioned the wisdom of holding such service at the present time. The committee in charge, therefore, decided that rather than have any misunderstanding or confusion, the service would be postponed for the present.

It was the intention of the committee to have the choir, band, unions and other groups, band, and attend the service in a body. When addresses and prayers would be rendered by the local clergy. "All the above organizations intend heartily into the spirit of the occasion and the gathering would, no doubt, would have been a great success. The service, however, has only been postponed and will be held just as soon as conditions will permit. All interested are requested to keep it in mind and be prepared to take part as and whenver the date is definitely decided upon.

This should be one of the largest and most enthusiastic gatherings ever held in Redcliffe and all citizens called off for the present should not be lost sight of or allowed to be overlooked entirely.

## War Stamps To Raise Fifty Million

In connection with the war saving stamp campaign which is being advertised in this issue Minister of Finance Sir Thomas White has the following to say:

"The war saving stamp campaign has three very important objects in view—to raise money to assist in meeting the continuing heavy obligations of the war during the period of demobilization, to stimulate the habits of thrift and benefit a large body of small investors."

"With a few years of prosperity Canada has become largely a nation of spenders, and had lost sight of the old-fashioned virtue of saving. In order to reduce the debt of nearly a billion dollars which we shall have at the end of demobilization, we shall have to greatly increase both our national production and our national savings."

"Another object of war saving stamps is to benefit the person who saves. The purchaser pays four dollars now and he gets five dollars in four years. It is a very simple and a very good investment."

"The government hopes to raise at least \$50,000,000 during 1919 from the sale of war savings stamps. This is only six dollars per head of population."

"Under the method of our financing the proceeds of the stamps will be expended entirely in Canada."

## Says Hun Ships Will Not Be Returned

Archibald E. Hurd, the naval writer, in the Daily Telegraph says, with reference to the idea said to be held by some Germans that the surrendered German warships would be returned to Germany after peace was signed, that it points, of course, to a complete misunderstanding of the intention of the allies. "For it is certain that these ships will never again fly the German ensign."

After discussing various proposals for the disposal of the German warships, Mr. Hurd says that the only course to adopt is to distribute them among the allies in accordance with the losses which each has suffered. (German submarines) on the other hand, should never be sold. Mr. Hurd suggests they be broken up and the parts used for other purposes.

While nights are long: John Blundell's Library.

## ADDITIONAL LOCALS

Mrs. Chas. Magic, of Cranbrook, B. C., is a visitor in town this week, the guest of her sister, Mrs. W. R. Holm.

A young colt dog strayed to town this week. Owner may get information through name by telephone or Review office.

Miss Alberta P. Gould, who has been visiting at the Manso for a few weeks, left on Monday for Edmonton to visit friends there.

In the only election for the Medicine Hat council held last Monday, Ald. J. Marshall was re-elected over James Hole by a majority of five votes.

## BIRTH

December 10th, 1918, Mr. and Mrs. R. Rose, of Redcliffe, a son.

## Waist Drive And Dance Postponed

The waist drive and dance announced for Friday evening, under the auspices of Returned Soldiers' Welfare League, has to be again indefinitely postponed, owing to health conditions. Those who have bought tickets should hold them, as date will be announced later, and these tickets will be good.

To those who promised donations, the League tenders their grateful thanks.

## ELECTION LAST MONDAY DREW A BIG VOTE

With a Dozen of Possible Vote  
Way Polled—Broughton, Oakland and Keats Are Successful Candidates.

There was more than the usual interest shown in the municipal election here last Monday and as a result a good vote was polled. There was quite a contest for the council. In this five candidates were in the field, four of these to be elected. The three received the largest vote were Messrs. F. E. Broughton, G. Oakland and W. Keats and the outcome of the election was declared then.

As the council had previously proposed a "defunct" list under the name of the election, the number of eligible voters was considerably reduced, as none but those who had their names put on the list before the election list. Omitting those who were ill and those who were out of town within what a dozen of the possible vote was polled. One hundred and forty votes were cast in all. Of these Broughton got 120, Oakland 90, Keats 81, and Stone, who were labeled by some as pals of the mayor and the big interests, were the defeated candidates.

## Canadian Soliders Marrying in England

The Canadian Associated Press learns that a reliable estimate shows that there are 90,000 women and children, dependent on Canadian soldiers in England. Roughly speaking, they can be transported at the rate of 500 each sailing. How many sailings will be available in the near future it is impossible to say, but in any case it is obvious the whole number cannot be transported before the demobilization of the army.

Striking scenes are witnessed nowadays at British Columbia House, where the Canadian military authorities have opened a special bureau for women and children to secure passages. The crowd is so great when every sailing is imminent that many are compelled to wait hours in queues. The Minnesota took 500 last Monday. Most of these will travel with their soldier husbands. Many of these wives will sail for Canada for the first time, for during recent months Canadian soldiers have been married by English women at the rate of 300 weekly. These special sailings for women and children will be suspended immediately demobilization begins.

## Elderly Veteran Returns From War

One of the most welcome visitors that Redcliffe has had for some time arrived here last Wednesday morning. When Kimball came here to visit his daughter, Mrs. George Moore. Although now well up to the three score mark, Mr. Kimball has just returned from the front where, for the past two years he has been doing his bit in the danger zones of the different battle fronts in France. When he enlisted with the 175th he was a resident of this town and was employed at the Brick & Coal plant.

Although he has been through some of the hardest fighting of the past two years he returns to Canada still hale and hearty and with only a slight scratch on the back of one hand as a souvenir of the great war. While on active service he was attached to the railroad fighting battalions, which brought him right up to the front line trenches on several occasions.

We welcome this veteran back to our midst and trust he may long be spared to return to his children and grandchildren many interesting events in the great world history in which he took part.

## Don't Sacrifice Your Victory Bonds

Unprecedented success has again attended Canada's Victory Loans. The number of individual subscribers is a credit to Canada, but the investment of savings in this way may lead to many heartburns unless the people are fully warned of the investments to which they will be exposed.

Many bonds were purchased from patriotic motives; many, however, were taken for the higher interest they offered. This is the case compared with 10 per cent from the bank. This increased earning capacity of their money may make holders of bonds susceptible to the temptation of promoters and organizers. Advertisements are appearing offering to accept Victory Bonds in payment for various goods, missing claims, oil well patents, etc.

In reply to the waste spoken of above he said there is no waste, except about 10 per cent which is allowed for shrinkage. The balance is all re-used.

"We will foundry be able to take care of the output from your furnace."

"With the average run of castings our foundry will have ample capacity, and we are building up a new way—that it can be easily extended."

"What class of labor, and about how many men will be employed?"

"With the plant running full capacity we will employ about 150 men, most of the labor being expert and well paid. Of course the amount of labor again depends on the size of the castings."

"We understand this is the first step towards the manufacture of farm machinery?"

"Yes; it would be folly for the Company to start in making any kind of machinery without being able to make their own steel castings, as there would not be much saving over the present prices of farm machinery if the castings had to be bought in the open market."

## Says Britain Should Maintain Her Navy

British naval supremacy is the subject of an article contributed by Rt. Hon. Winston Spencer Churchill, minister of munitions in the coalition government, in the London Evening Post. He says that no other state in the world is in the same position as Great Britain. "Our safety from invasion, our daily bread, every means whereby we maintain our existence as an independent people, our unity as an empire, our freedom of commerce, wealth and dependencies—all those things from hour to hour upon our naval defenses," says Mr. Churchill.

Continuing he says: "If that defense is neglected, weakened or degraded we all shall be in peril. We shall be in peril of starvation. We should be forced to live in continuous anxiety. If that naval defense were overpowered or overmastered by any naval or probably by a combination of navies we should hold, not merely our possessions, but our very lives and liberties only at our own mercy."

The Manitoba government has decided to enter into the station buying scheme in order to keep the home in the restoration of returned soldiers from extinction. The station will be sold at cost to farmers or syndicates. At present there are only about 800 stallions in the province.

## FURNACE FOR NEW PLANT IS A GOOD ONE

**Will Have Capacity From 15 to 25 Tons a Day—When Running to Capacity the New Plant Will Employ 150 Men.**

A representative of the Review on Mr. Fred Zeigman, superintendent of the foundry now under construction by the Danleah Manufacturing Company. On being asked what type of open hearth furnace he is installing, Mr. Zeigman explained that there were several types of steel furnaces, but a great many of the small furnaces only fired from one end, and continuous heat with that system had to be used. As a consequence the inside of the furnace turned out very quickly.

"We are installing what is known as the McLean-Carver Open Hearth Furnace. It is fired from both ends ultimately, by that system the side wall will last for from three to four hundred heats, which in itself means a big saving over the old style of furnace."

In speaking of the fuel question Mr. Zeigman said: "The fuel principally used for making steel in open hearth furnaces is coke oil, so, of course we all know that natural gas, at the price we get it here, really means a big saving over the old style of furnace."

"What will be the capacity of the furnace?"

"In operating the furnace twenty-four hours we will be able to take off six heats, and each heat will give us about four tons of steel, but this will largely depend on the size of the castings. In large castings there is much less waste than in small castings, so the furnace will have a capacity of anywhere from fifteen to twenty-five tons, according to the size of the castings."

"In reply to the waste spoken of above he said there is no waste, except about 10 per cent which is allowed for shrinkage. The balance is all re-used."

"We will foundry be able to take care of the output from your furnace?"

"With the average run of castings our foundry will have ample capacity, and we are building up a new way—that it can be easily extended."

"What class of labor, and about how many men will be employed?"

"With the plant running full capacity we will employ about 150 men, most of the labor being expert and well paid. Of course the amount of labor again depends on the size of the castings."

"We understand this is the first step towards the manufacture of farm machinery?"

"Yes; it would be folly for the Company to start in making any kind of machinery without being able to make their own steel castings, as there would not be much saving over the present prices of farm machinery if the castings had to be bought in the open market."

## Seventeen Different Parties in Britain

The close of the nominations for British elections has failed to reduce appreciably either the multiplicity of candidates or the variety of labels which they have attached to themselves. An inspection of the lists shows the candidates in the present election have seventeen different recognized styles of describing themselves, ranging from the conventional Liberal or coalition Unionist through "national and democratic labor," "independent soldier," "independent labor," "agricultural," down to "Blind Felt."

Despite this, perhaps because of it, the interest in the election is at the best lukewarm so far.

The Times, discussing this, provides the polling, notwithstanding will be much heavier than many prophets anticipated.

The election takes place on Saturday next.

## VETERANS WANT \$1,000,000,000

A suggestion will be made to the government that \$1,000,000,000 of the \$40,000,000,000 which Great Britain is to ask as its war indemnity should be given to Canada to be used in the restoration of returned soldiers and the upkeep of soldiers' widows and orphans, according to W. E. Turney, provincial secretary of the G.W.U.

The Manitoba government has decided to enter into the station buying scheme in order to keep the home in the restoration of returned soldiers from extinction. The station will be sold at cost to farmers or syndicates. At present there are only about 800 stallions in the province.

## ITEMS OF LOCAL INTEREST

Blundell's for Xmas shopping.

A nice assortment of Xmas candles, meats and winter apples just in at Mrs. Wilde's.

Mrs. Summerfield, of Bowell, spent a few days last week in town, visiting Mrs. P. Odlin.

Mrs. Hoover, Freed will resume her music class next week, commencing on Monday.

Blundell's for toys and gifts. Our selection is bigger and better than ever.

A full line of fresh lime, plaster, cement, beaver board, tar paper, roofing and lumber at the Atlas Lumber Co. yard, Redcliff.

The Ladies' Aid of the Presbyterian church will meet at the home of Mrs. H. J. Sissons next Thursday afternoon at 3 o'clock.

Make your Xmas gift a pure Porcelain Ivory. Get it at Hall's.

Nurse Fallon has been engaged to take charge of the emergency hospital in place of Miss Murray who last week contracted the "flu" and was taken to Medicine Hat.

Books, books and more books, at Blundell's.

Mrs. Grace Woodcock entertained for her little son Bruce on Monday evening, the 25th, giving a delightful "Birthday Supper" to some of his little friends, the occasion being his 7th birthday.

J. R. Reid, of Maple Creek, spent last week and in town, the guest of E. L. Stone. Mrs. Reid, who has been visiting here for the past week, returned home with Mr. Reid on Tuesday.

Word was received in town this week that the little daughter of Mr. and Mrs. W. Hodgkins, who now lives near Ringville, north of here, died suddenly last Sunday. Mr. and Mrs. Hodgkins and family resided in Redcliff last winter.

Keep in mind the dance in the Empress theatre on Friday, Dec. 20th, under the auspices of the G. W. V. A. Ladies' Auxiliary. Good music and refreshments will be provided. Tickets may be secured from members of the committee or at Mac's Cigar Store.

While in Medicine Hat last Saturday Geo. Moses of this town, was instrumental in running to earth two joy riders who were making off with a car which was left standing at the C. P. R. station. George saw the youths getting into the car and make off with it and when the owner arrived he was taken into George's car and the two started in full pursuit of the thieves. They overtook the car and the occupants near the Dunmore Hill. The car was returned to its owner and the boys appeared before a magistrate.

Some idea of the way the signing of the armistice was celebrated in the old country is seen in a letter which Miss Gibson received from her sister in Winchester, England, after describing a lengthy procession in which young and old of all walks of life took part the letter refers to a gathering on one of the large squares where a bonfire was started. On the effigies of the Kaiser and little Willie, Von Trepitz, Von Hindenburg were thrown, and as these smouldered away U-boats, George and tanks, all allied with illuminating explosives, were also added to the fuel.

Your boy or girl will want a Brindle for Xmas. Get it at Hall's.

Xmas decorations. Big selection at Blundell's.

The Rev. W. Shearer, superintendent of missions, is in town today, the guest of Rev. and Mrs. Gordon.

The Review calendars for 1919 have arrived and are now ready for distribution to our subscribers.

As there are still a number of cases in the emergency hospital the school will not be opened till after the beginning of the new year.

Blundell's for Xmas Cards.

Miss Ada Smith of the teaching staff went to Calgary on Monday. After visiting friends there she will proceed to Red Deer to spend the holidays.

Make it a Gramophone or Phonograph for Xmas. Get them at Hall's.

Although there have been eight new cases of influenza reported in the last week, however, does not appear to be any cause for alarm at present. The number of patients at the school has been greatly reduced in the last few days and now there are only 12 patients confined there. Of these a number will be taken to their homes by the end of the week.
